Nothing in these regulations shall be construed to limit the right of the complainant to file a lawsuit in either state or federal court.

## **VIII. Disciplinary Consequences, Procedures and Referrals**

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' growth in self-discipline.

Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary consequences will consider the following:

1. The student's age.
2. The nature of the offense and the circumstances that led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers and/or others, as appropriate
6. Other extenuating circumstances.

As a general rule, discipline will be progressive. This means that a student's first violation will usually merit a lesser consequence than subsequent violations, unless the principal or designee deems the first offense to be severe enough to warrant a stiffer consequence.

If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education and the consequences, if warranted, shall be administered consistent with the separate requirements of this code of conduct for disciplining students with a disability or presumed to have a disability. A student identified as having a disability shall not receive consequences for behavior related to his/her disability.

### **A. Consequences**

Students who are found to have violated the district's code of conduct may be subject to the following consequences, either alone or in combination. The school personnel identified after each penalty are authorized to impose that consequence, consistent with the student's right to due process.

1. Oral warning - any member of the district staff

13. Permanent suspension from school - superintendent, board of education.

## DUE PROCESS

### B. Procedures

The amount of due process a student is entitled to receive before a consequence is implemented depends on the consequence being imposed. In all cases, regardless of the consequence imposed, authorized school personnel must inform the student of the alleged misconduct and must investigate the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to authorized school in connection with the imposition of the consequence.

Students who receive consequences other than an oral warning, written warning or written notification to their parents are entitled to additional rights before the consequence is imposed. These additional rights are explained below:

1. Detention - Teachers, principals and the superintendent may use after school detention as a consequence for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Detention will be used as a consequence only after the student's parent has been notified to confirm that there is no parental objection to the penalty and the student has appropriate transportation home following detention.

2. Suspension from transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal or the superintendent or their designees. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance; the district will make appropriate arrangements to provide for the student's education.

The student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and consequence.

3. Suspension from athletic participation, extra curricular activities and other privileges

Students who are suspended from participation in athletics or extra curricular activities, along with their parents will be provided with a reasonable opportunity for an informal conference with the authorized district staff member to discuss the conduct and the penalty involved.

4. In-school suspension

The board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the board authorizes building principals and the superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in "in-school suspension." The in-school suspension teacher will be a certified teacher.

The student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the conduct and the consequence involved.

#### 5. Teacher disciplinary removal of disruptive students

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to: (1) short-term "time out" in an elementary or middle school classroom or in an administrator's office; (2) sending a student into the hallway briefly; (3) sending a student to the principal's office for the remainder of the class time only; or (4) sending a student to a guidance counselor or other district staff member for counseling. These classroom management techniques such as these do not constitute disciplinary removals for purposes of this code.

On occasion, a student's behavior may become disruptive. For purposes of this code of conduct, a disruptive student is a student who is substantially interrupts classroom learning or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules.

A classroom teacher may remove a disruptive student for the remainder of the period of instruction. Removal up to two days will be determined after a joint conference with the student, parents/guardians, teacher and principal.

If the disruptive student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and an opportunity to explain his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24-hours.

The teacher must complete a district-established disciplinary removal form and meet with the principal or his or her designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal. If the principal or designee is not available by the end of the same school day, the teacher must meet with the principal or designee prior to the beginning of classes on the next school day.

Within 24-hours after the student's removal, the principal or another district administrator designated by the principal must notify the student's parents, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal or the principal's designee to discuss the reasons for the removal.

The written notice must be provided by personal delivery, express mail delivery, or some other means (such as email or fax) that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.

The principal may require the teacher who ordered the removal to attend the informal conference.

If at the informal meeting the student denies the charges, the principal or the principal's designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.

The principal or the principal's designee may overturn the removal of the student from class if the principal finds any one of the following:

- a. The charges against the student are not supported by substantial evidence.
- b. The student's removal is otherwise in violation of law, including the district's code of conduct.
- c. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.
- d. The length of time a student is to be barred from class is warranted by the severity of the offense.

The principal or his or her designee may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48-hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the principal makes a final determination, or the period of removal expires, whichever is less.

Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.

Each teacher must keep a complete log for all cases of removal of students from his or her class. The principal must keep a log of all removals of students from class.

Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

## 6. Suspension from school

Suspension from school is a severe penalty, which is used only for students who are repeatedly insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, health or welfare of others.

The board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the code of conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

a. Short-term (5 days or less) suspension from school

When the superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less, the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to the last known address for the parents. Notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the superintendent's decision, they must file a written appeal to the board of education with the district clerk within 10 business days of the date of the superintendents' decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

b. Long-term (more than 5 days) suspension from school

When the superintendent or building principal determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

The superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof.

An appeal of the decision of the superintendent may be made to the board that will make its decision based solely upon the record before it. All appeals to the board must be in writing and submitted to the district clerk within 10 business days of the date of the superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The board may adopt in whole or in part the decision of the superintendent. Final decisions of the board may be appealed to the Commissioner within 30 days of the decision.

c. Permanent suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well being of other students, school personnel or any other person lawfully on school property or attending a school function.

### **C. Minimum Periods of Suspension**

1. Students who bring a weapon to school

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the suspension, the superintendent may consider the following:

- a. The student's age.
- b. The student's grade in school.
- c. The student's prior disciplinary record.
- d. The superintendent's belief that other forms of discipline may be more effective.
- e. Input from parents, teachers and/or others.
- f. Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. Students who commit violent acts other than bringing a weapon to school

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension.

The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. Students who are repeatedly substantially disruptive of classroom learning or repeatedly substantially interferes with the teacher's authority over the classroom.

Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom, will be suspended from school for at least five days. For purposes of this code of conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to this code on four or more occasions during a semester, or three or more occasions during a quarter. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the consequence, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

#### **D. Referrals**

1. Counseling – The Guidance Office shall handle all referrals of students to counseling. Students found guilty of harassment or discrimination may be referred for counseling.
2. Person In Need of Supervision (PINS) Petitions

The district may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b. Engaging in an ongoing or continual course of conduct that makes the student ungovernable, or habitually disobedient and beyond the lawful control of the school.
- c. Knowingly and unlawfully possesses marijuana in violation of Penal Law § 221.05. A single violation of § 221.05 will be a sufficient basis for filing a PINS petition.

### 3. Juvenile Delinquents and Juvenile Offenders

The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a weapon to school, or
- b. Any student-14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42).

The superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

## **E. Intervention for Harassment and/or Discrimination**

Intervention by knowledgeable and trained individuals is an important step in preventing escalation of harassment and discrimination may lead to resolution of issues at an early stage. Staff intervention towards incidents of discrimination and harassment will emphasize measured, balanced and age-appropriate responses to the discrimination and harassment of students by students and/or employees.

Successful intervention may involve remedial measures. Remedial responses to bullying and harassment include measures designed to correct the problem behavior, prevent another occurrence of the behavior and protect the target of the act. Remediation may be targeted to the individual(s) involved in the harassing or discriminatory behavior or may include environmental approaches which are targeted to the school or district as a whole.

Appropriate remedial measures may include, but are not limited to:

- peer support groups;
- assignment of an adult mentor at school that the student checks in with at the beginning and end of each school day;
- corrective instruction that reemphasizes behavioral expectations or other relevant learning or service experience;
- engagement of student in a reflective activity, such as writing an essay about the misbehavior and its impact on others and how the student might handle the situation differently in the future and/or make amends to those who have been harmed;
- supportive intervention and/or mediation where constructive conflict resolution is modeled;
- behavior assessment or evaluation;
- behavior management plans or behavior contracts, with benchmarks that are closely monitored;
- student counseling and parent conferences that focus on involving persons in parental relation in discipline issues.

In addition to addressing the discriminatory or harassing conduct, intervention shall also include support and assistance to the student that was the target of the harassment as well as identification of prompt and effective steps reasonably calculated to end the harassment; to eliminate any hostile environment and to prevent such conduct from reoccurring. When harassment has occurred, staff, in conjunction with the DAC, the parents and the student, as appropriate, shall review whether the student requires counseling support, accommodations or other services to remedy the effects of the harassment and, if such a need exists, shall arrange for the appropriate services or supports. Accommodations and on-going supports provided to a target of harassment shall be reviewed, as needed, to ensure that any safety concerns have been addressed and to determine whether accommodations or supports should be continued, adjusted or discontinued.

## **IX. Alternative Instruction**

When a teacher removes a student of any age from class or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the district will take immediate steps to provide alternative means of instruction for the student. Such alternative means may include tutoring or education in an alternative setting.

## **X. Discipline of Students with Disabilities**

The Board of Education recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The board also recognizes that students with disabilities have certain procedural protections whenever school authorities intend to impose discipline upon them. The board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

### **A. Authorized Suspensions or Removals of Students with Disabilities**

1. For purposes of this section of the code of conduct, the following definitions apply.

A "suspension" means a suspension pursuant to Education Law § 3214.

A "removal" means a removal for disciplinary reasons from the student's current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others.

An "IAES" means a temporary educational placement for a period of up to 45 days, other than the student's current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum, although in another setting, to continue to receive those services and modifications, including those described on the student's current individualized education program (IEP), that will enable the student to meet the goals set out in such IEP, and include services and accommodations to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring and to teach appropriate behaviors.

2. School personnel may order the suspension or removal of a student with a disability from his or her current educational placement as follows:
  - a. The board, the district (BOCES) superintendent of schools or a building principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
  - b. The superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.
  - c. The superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.
  - d. The superintendent may order the placement of a student with a disability in an IAES to be determined by the committee on special education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 days, if the student carries or possesses a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.
    - 1) "Weapon" means the same as "dangerous weapon" under 18 U.S.C. § 930(g)(w) which includes "a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except...[for] a pocket knife with a blade of less than 2 1/2 inches in length."
    - 2) "Controlled substance" means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.
    - 3) "Illegal drugs" means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.
3. Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 days at a time, if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.

#### B. Change of Placement Rule

1. A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:

- a. for more than 10 consecutive school days; or
  - b. for a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
2. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.

However, the district may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

C. Special Rules Regarding the Suspension or Removal of Students with Disabilities

1. The district's Committee on Special Education shall:
- a. Conduct functional behavioral assessments to determine why a student engages in a particular behavior, and develop or review behavioral intervention plans whenever the district is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.

If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his or her current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary.

If one or more members of the CSE believe that modifications are needed, the school district shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the committee determines necessary.

- b. Conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension that constitutes a disciplinary change in placement.
2. The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under the Individuals with Disabilities Education Act (IDEA) and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the school district is deemed to have had knowledge that their child might be presumed to be a student

with a disability before the behavior precipitating disciplinary action occurred. If the district is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.

- a. The superintendent, building principal or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
- b. A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the district had knowledge the student was a student with a disability, the district either:
  - 1) conducted an individual evaluation and determined that the student is not a student with a disability, or
  - 2) determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the district, which can include suspension.

3. The district shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement. The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.
4. The parents of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.
5. Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days shall be separated into a guilt/innocence phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this code.
6. The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.

7. During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Commissioner's regulations incorporated into this code.

#### **D. Expedited Due Process Hearings**

1. An expedited due process hearing shall be conducted in the manner specified by the Commissioner's regulations incorporated into this code, if:
  - a. The district requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.
  - b. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
    - 1) During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the district agree otherwise.
    - 2) If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
2. An expedited due process hearing shall be completed within 15 business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the district and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.

#### **E. Referral to law enforcement and judicial authorities**

In accordance with the provisions of IDEA and its implementing regulations:

1. The district may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. The superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.

## **XI. Corporal Punishment**

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any district employee is strictly forbidden.

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

1. Protect oneself, another student, teacher or any person from physical injury.
2. Protect the property of the school or others.
3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school district functions, powers and duties, if that student has refused to refrain from further disruptive acts.

The district will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

## **XII. Student Searches and Interrogations**

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to authorize a disciplinary consequence on a student may question a student about an alleged violation of law or the district code of conduct. Students are not entitled to any sort of "Miranda"-type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the board authorizes the superintendent, building principals, the school nurse and district security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will produce evidence that the student has violated or is violating the law and/or the district code of conduct. Searches will be conducted by a staff member of the same sex as the student upon request of a school official. Another staff member, also of the same sex, will be present as a witness.

If reasonable suspicion exists to believe that a student has violated or is violating the law and/or school rules, it is permissible for an authorized school official to search a student's outer clothing, pockets, or property. The search may include, but is not limited to, the student's outer clothing, such as a jacket or coat, pockets, backpack, and/or purse.

An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than the district employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the district code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

#### **A. Student Lockers, Desks and other School Storage Places**

The rules in this code of conduct regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

#### **B. Strip Searches**

A strip search is a search that requires a student to remove any or all of his or her clothing, other than an outer coat or jacket. Strip searches are intrusive in nature and are not permissible. If school authorities believe there is an emergency situation that could threaten the safety of others, the student shall, to the extent practicable, be isolated and secured. Police and parents will be contacted immediately.

#### **C. Documentation of Searches**

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age and grade of student searched.
2. Reasons for the search.
3. Name of any informant(s).
4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.

8. Time and location of search.

## **D. Police Involvement in Searches and Interrogations of Students**

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school-function; or
3. Been invited by school officials.

Before police officials are permitted to question or search any student, the building principal or his or her designee shall first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted. The principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.

## **E. Child Protective Services Investigations**

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property shall be made directly to building principal or his or her designee. The principal or his or her designee shall set the time and place of the interview. The principal or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other district medical personnel must be present during that portion of the interview. No student may be required to remove his or her clothing in front of a child protective services worker or school district official of the opposite sex.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if not he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

### **XIII. Visitors to the Schools**

The visitor must return the identification badge to the principal's office before leaving the building.
3. Visitors attending after-school functions that are open to the public, such as parent-teacher organization meetings or public gatherings, are not required to register.
4. Parents or citizens who wish to observe a classroom while school is in session are required to arrange such visits in advance with the building principal, so that class disruption is kept to a minimum.
5. Teachers are expected not to take class time to discuss individual matters with visitors.
6. Any unauthorized person on school property will be reported to the principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
